

DIXON EVENING TELEGRAPH.

OFFICIAL PAPER OF THE CITY OF DIXON BY ACT OF CITY COUNCIL

Telegraph Sixtieth Year

DIXON, ILLINOIS WEDNESDAY, APRIL 3, 1912.

Dixon Daily Telegraph Twenty-Ninth Year No 80

VOTERS ELECT A TOWNSHIP TICKET

BURKET AND SELF ASSISTANT SUPERVISORS—WHITISH WINS EASILY.

STEEL RE-ELECTED TOWN CLERK

Jonas Stultz Wins Office of Tax Collector—Many Ran—Tryon Rosbrook Returned as Commissioner of Highways—W. G. Kent, Justice of the Peace.

Dixon voters showed but ordinary interest in the election yesterday, although the vote has been smaller. They elected Luther Burket and Chas. T. Self to the office of assistant supervisor.

Steel Returned to Office.

In the race for town clerk, W. V. E. Steel, who has filled the position so well for some time past, was returned to the office with a handsome and flattering majority, almost twice as large as that of his nearest competitor.

Whitish Wins Easily.

J. A. Whitish won the office of assessor with over four times as many votes as E. H. Webster, the socialist candidate.

Stultz Victorious.

Jonas Stultz, out of many others, drew the prize of tax collector. He was 132 above his nearest man, Frank Arbogast.

Rosbrook Is Com. of Highways.

Tryon Rosbrook of the Bend won out in the fight for commissioner of highways. Nicholas Plein was but 86 votes behind him at the finish. Mr. Rosbrook was a candidate for reelection. He has filled the position very creditably.

Kent Gets Through.

Our popular police magistrate, W. G. Kent, also a candidate for a member of the state board of equalization, was yesterday elected to the office of justice of the peace with a margin of 1091 votes to spare. Mr. Kent had no opposition.

Cyclone Demolishes 25 Buildings in Camden, N. J.

Two Women Are Seriously Hurt—People of Austin, Pa., Terror-Stricken Over Possible Floods.

Philadelphia, April 3.—Two women were seriously injured, scores of houses were unroofed and more than twenty-five buildings were demolished by a windstorm of cyclonic velocity, which passed over that portion of Camden known as Cooper's Point and swept down the Delaware river to the center of this city, doing thousands of dollars' worth of property damage. Camden is in darkness, all the electric lights having been turned off, while streets in the northern section of that city are filled with the debris from ruined buildings and telegraph poles.

Mrs. Annie Cleary of Camden and Miss Annie Behren of Philadelphia, who were riding in a street car in Camden, were caught beneath a building which was demolished and so badly crushed that physicians say neither can recover.

In the section of Camden where the storm was most severe entire blocks of dwellings were unroofed and the occupants driven to the streets in terror.

Austin, Pa., April 3.—Terror struck into the hearts of the people in this devastated valley when water began to pour over the spillway of the 24-foot timber dam, owned by the Bayless Pulp and Paper company, two miles above the town. In great alarm the majority of the 900 citizens who have remained here since the disaster of September 30 last, which cost 80 lives, began flocking to the hills in a pouring rain.

HAWAII CHIEF UNDER FIRE

Secretary Fisher Will Visit Island to Investigate Charges.

Washington, April 3.—Secretary Fisher of the department of the interior will go to Honolulu soon to investigate charges preferred against Walter F. Frear, governor of Hawaii, by Delegate Kalaniana'ole. The charges were that Frear's sympathies were with the sugar trust and other special interests.

COUNCIL ARGUED THE FRANCHISE EXTENSION

CHAS. A. MONROE AGAIN STATES REASONS WHY THE COUNCIL SHOULD EXTEND FRANCHISE FIFTY YEARS.

HELD LONG CONFERENCE

New Corporation Officers and City Officials Argued Franchise and Concessions All Evening—Monroe Threatens to Withdraw Franchise if People Are Unfriendly.

The city council met last evening, made and heard a few speeches and adjourned until 2 p. m. today without taking any definite action on the extension of the franchise or anything else.

All of the commissioners were present and the mayor presided. Chas. A. Monroe, vice president of the Public Service Company of Northern Illinois, was on hand to present his plea to the council for the extension of the franchise.

The mayor opened the meeting by saying that he had been away all the week and had not even read the franchise as the Public Service company wanted it, and that therefore he was not prepared to vote upon it that evening, but that he was in favor of discussing the matter thoroughly at that time, and adjourning until some time today to take action. He then asked Mr. Monroe if he had anything to say on the subject.

Mr. Monroe said: "We have nothing more to offer than we had last time I spoke to the commission. Unfortunately I cannot be here tomorrow and I am sorry that you cannot finish this thing up tonight."

Attorney Henry Dixon, vice president of the S. D. & E., was present and, speaking for the company, said that he understood that the commissioners would like some assurance of the ability of the new corporation to make good the promises they made to the council last week, and spend the money they say they will. He said that everyone who wants to can find out who Mr. Insull, president of the company, is.

Mr. Monroe then offered the mayor a letter from Mr. Insull to the commissioners and mayor. Mr. Insull's letter assured the mayor and commissioners that the money would be spent here and that the promises made would be kept.

Mr. Brinton offered that he had made inquiries at the biggest bank west of New York and ascertained to his satisfaction that the Public Service corporation was abundantly able to do all they proposed to do.

Grant to Old Company.

Commissioner Schmidt struck a vital point when he said, "But we are granting this extension to the old company. How do we know for sure that the plant will be bought and the money spent here? A bond should be filed that will insure the expenditure of the \$200,000."

Mr. Monroe's answer was that some people's signature was better than a bond.

Commissioner Gannon said: "The burden of the company's argument is that they will develop the water power, but they don't develop the water power for the benefit of Dixon, but for the benefit of the company."

Now this is too important a question to rush through. I for one would like to see this company here, but 50

years is a long time ahead. We have found by experience that companies do not always keep their word. I see nothing in this franchise that is a benefit to Dixon, and there are many things that should be gone into and investigated before it is passed. It should be done cautiously. Under no circumstances will I vote for the franchise the way it stands."

Commissioner Schuler said: "I think the time is too short. We ought to investigate this more. I would, however, like to put it up to the people and let them vote on it. I don't want to be responsible for the decision."

Mr. Monroe then rose with great dignity and announced that if the gentleman on his left (meaning Commissioner Gannon) expressed the sentiment of the entire people, that the company would ask to withdraw. He said that the company had made many concessions and that there was no use going into it further. He forgot what he said as soon as he said it, however, for he kept right on with the talk and kept the mayor and commissioners in the city clerk's office until nearly 11 o'clock, threatening the matter over and endeavoring to change their view-point on the matter.

Matter of Wires and Poles

Commissioner Van Bibber then brought up the matter of wires and poles, and asked what the company would do if at any time in the future, before the expiration of the 50-year franchise, the city wants the electric light wires and poles removed from the streets and the wires put underground. He said that the city attorney had informed him that under the terms of the franchise it would be impossible to have that done, unless the company did it out of the goodness of their heart, which is rather a remote possibility.

Mr. Monroe answered them by saying that the city had, under their police power, the right to have the poles and wires removed at any time, but it developed later that he meant any time that the city grew to a city of 50,000 or thereabouts.

City Attorney Keller then said: "If the law is as you say, Mr. Monroe, why do you object to having the franchise in harmony with the law?"

Commissioner Schmidt, too, pointed out that last year when the city wanted to pave Commercial alley and the property owners objected on the ground that there was no use in paving the alley while it remained cluttered up with a forest of poles and the city went to Mr. Dixon, who referred their request that the poles be removed and the wires put underground to Mr. Smith, president of the company, that Mr. Smith refused pointblank to do it, and that our police power was up a stump.

Service.

The question of what kind of service we should get was brought up, and Mr. Brinton said that the quality of service was likely to be gauged by the volume of business done in the community.

Our railroad here is a convenience to Dixon without making any money for its owners. We have a very clean, respectable and cleverly operated road. The lighting proposition, too, is a bad one. The town is so scattered and so hilly that it is an expensive proposition to distribute electricity. There is a fair remuneration in the gas business. I feel that we ought to give these people a chance to come in here. It may be necessary for us to throw out safeguards to protect us, and this we can do."

The mayor then asked if there was anyone in the audience who wished to say anything, and called upon Mr. Maloney, who said in part: "I very

NACHUSA ORPHANAGE BURNED TO GROUND

willingly signed for 140 feet of railway frontage this morning. I believe the change that is anticipated will be a valuable one for the city. It will bring in a corporation that has got money and that can make the juice at the right price."

Mr. Maloney asked what was to be done here with the motors, in case the new company did, what they are very likely to, changed the system so that power users will have to have different sorts of motors. Mr. Monroe said afterward that the three phase motors would be substituted and the old motors taken over at their purchase price, which is but little lower than the new ones. Mr. Monroe put the difference at about \$10 on a ten horse power motor.

Mr. Maloney then introduced Mayor Dittmar of Freeport, who arose to say that he wished Mr. Monroe would come to Freeport and that he thought he could get a good deal in that city, if he would. Mayor Dittmar complimented our street car system and said he would be glad if Freeport's was as good. He said the service in Freeport was very poor and was a detriment to that city. Mayor Dittmar is a candidate for democratic state central committeeman.

Adjourned Until Today.

The council adjourned until this afternoon at 2 o'clock. After adjournment Mr. Monroe asked the commissioners to sit down and talk things over with him and this they did until nearly 11 o'clock. The arguments grew warm at times, and Mr. Gannon yelled pretty loud for dollar gas, but Mr. Monroe refused to make any concessions whatever.

He stated that Dixon would have to be a town of 50,000 people before it could expect to have any electric light wires underground. He assured the council that it was the policy of their company to reduce prices and make concessions wherever practicable, and that after they had been doing business here five years, if it was found that \$1.25 was an unfair price for gas, they would lower the price by arbitration.

The result of the entire evening's argument was that the matter stood exactly where they started in. The commissioners, or at least most of them, thought that they should have more time to think the matter over, and were inclined to the belief that the company wanted too much for what they gave in return.

STERLING AND ROCK FALLS WET

Sterling, Apr. 3.—Special—Sterling and Rock Falls both remain in the "wet" column as the result of yesterday's election. Sterling returned a majority of 386 votes for the wets and Rock Falls, 160. The vote in each city was:

Sterling, wet, 1159; dry, 773. Rock Falls, wet, 519; dry, 359.

WOMEN CONVENTION MEET

First Illinois Organization Called to Order by Jane Addams.

Chicago, April 3.—Miss Jane Addams this afternoon called to order the first Illinois convention of women for good roads and nearly a thousand delegates from women's clubs in all parts of the state responded to the roll call. The convention is being held in the Auditorium hotel and will continue through tomorrow, with a program of addresses from the club delegates. The chairman tonight will be Mrs. Minnie Star Granger, president of the state federation of women's clubs, and the closing session will be conducted by Mrs. Ella Flagg Young, head of the Chicago schools.

HOME FOR FATHERLESS AND MOTHERLESS WAIFS WAS DESTROYED.

NOT A TIMBER LEFT STANDING

Big Frame Structure Reduced to Ashes—Flames Started in Attic of East Wing—Furniture Saved—Children Taken Into Homes—Was Old Col. Dysart Homestead.

Nachusa, Ill., Apr. 3.—The Nachusa orphanage, located one-half mile north of this place, was burned to the ground this morning, but fortunately most of the furniture in the big building was saved and none of the occupants were injured in any way.

The fire started in the attic of the east wing of the building, but in spite of the determined efforts of all connected with the institution and neighbors, the structure was reduced to an ash heap.

The building, a big frame structure, was the former home of Col. Dysart and his daughter, Mrs. Lloyd Shaw, and it was as dry as tinder and burned fiercely. Timely action however, resulted in the saving of the furniture.

The children are now being cared for in homes in the vicinity and because of the excited and disturbed conditions it is impossible to determine the loss or amount of insurance.

COUNCIL AMENDS LONG FRANCHISE

AT ADJOURNED MEETING COUNCIL AMENDS FRANCHISE EXTENSION TO ANNULL IT IF MONEY IS NOT SPENT—SAY NOTHING ABOUT SERVICE OR EQUIPMENT.

The city council this afternoon unofficially agreed to an amendment to the proposed ordinance dealing with the S. D. & E. and Lee County Lighting companies, added it to the proposed ordinances extending the various franchises until 1960, and filed those ordinances. Adjournment was then taken until next Wednesday, when some action will probably be taken by them. The amendment proposed is that, unless the Public Service company shall expend between \$150,000 and \$200,000 in the rehabilitation of the local power plant within 18 months, as indicated in Samuel Insull's letter of April 2, then the extension of the franchise will be null and void.

ROOSEVELT SPEAKS HERE ON SATURDAY

EX-PRESIDENT WILL TALK TO DIXON VOTERS FROM SPECIAL TRAIN SATURDAY AFTERNOON.

Col. Theodore Roosevelt, ex-president of the United States and now a candidate for that high office, will be in Dixon on Saturday and will speak to the citizens of this city from his special train at the Illinois Central depot at 1 p. m.

He starts from Chicago on Saturday morning and speaks in Rockford, Freeport and then Dixon.

The Colonel's presence should bring thousands here, and Saturday will be a big day for Progressive Republicans in this vicinity.

F. D. Chadwick of Ashton was in Dixon today.

STRIKE TO CONTINUE

British Miners Vote Against Returning to Work.

By Terms of New Law 40,000 Have Resumed Labor But May Have to Quit.

London, April 3.—To the great surprise of the London public, the British miners are voting against returning to work, and by a very considerable majority, although the returns will not all be in before late today.

At the headquarters of the Miners' federation it was announced that the vote on whether the miners will return to work on the terms of the minimum wage law stood: Against returning, 135,000; for resumption, 123,000. Many of the miners who voted to abide by the terms of the new law have already returned to work, it being estimated that no less than 40,000 men worked in the pits. If the final decision is against going back to work, as now seems probable, the operators count on wholesale desertions from the union.

PERJURY INQUIRY DROPPED

Investigation Started as Result of Lorimer Case Testimony Stopped.

Chicago, April 3.—The investigation which the federal grand jury in Chicago began last November into charges that perjury was committed during the hearing of the senate committee in the Lorimer investigation has been dropped. The grand jury was discharged. The investigation was called off, it was reported, upon receipt of orders from Washington.

Held for Minneapolis Murder.

Minneapolis, Minn., April 3.—Formerly charged with the murder of Alice Mathews one week ago last Sunday, Frank J. Quartemont was arrested a few moments after he had been freed on a writ of habeas corpus.

REJECT PRIMARY VOTE

Minnesota Republican Committeemen Vote Against Plan 28 to 7.

St. Paul, Minn., April 3.—The presidential preferential primary plan was rejected at a meeting of the state Republican central committee here. On a motion to table a resolution providing for the plan the vote stood: Yea, 28; nay, 7; not voting, 2.

Shotgun Injures Boy and Girl. Barnesville, Minn., April 3.—The seven-year-old son of Ole Nason suffered injury to one arm, and his sixteen-year-old sister received a serious wound in her side when a shotgun was discharged accidentally at their home near here.

AMBOY SECTION

AMBOY PASSES HARD ROADS MEASURE WILL GREATLY IMPROVE ROADS

PROPOSITION SUPPOSED TO BE LOST WAS CARRIED BY 80 VOTES.

Man Arrested for Trespass—Other Amboy News Told in Letter—Personal and Social News From Hustling City.

Amboy, Apr. 3.—The biggest surprise of any election for many years developed yesterday when the hard roads proposition carried by a majority of 86. According to the forecasts before election this proposition was doomed to defeat, and even the supporters of the scheme had no deep seated hopes that it would carry.

The proposition for which a majority of the voters marked their ballots yes is self-explanatory, and it shows the work that will be done:

"Proposed tax levy at the rate of 30 cents on each \$100 of the assessed valuation of all taxable property, including railroad, each year for five years, for the purpose of constructing rock or macadam roads, as follows:

The road now located and known as the Sublette road, commencing at the east line of the city of Amboy, thence northerly to what is known as the Binghamton bridge, near the southeast corner of section 13, and thence southeasterly across the said bridge to a point on town line between Amboy and Lee Center townships, near the southeast corner of the northeast quarter of section 36; also

The road known as the Cemetery road, commencing at the southeast corner of the northeast quarter of section 16, thence north to the town line; also

The road known as the Sterling road, commencing at or near the southeast corner of the northeast quarter of section 16, thence west to the townline; also

The road known as the Green road commencing at the southeast corner of the northeast quarter of section 21 (city limits), thence west to the town line; also

The road known as the Morgan Bridge road, commencing at the northeast corner of section 30, thence south to the town line.

Successful Candidates.

The successful candidates in yesterday's election were:

Town clerk—J. E. Lewis.
Assessor—Bernard McCaffrey.
Collector—Chas. Kiefer.
Highway Commissioner—John L. Thompson.

School Trustee—G. M. Finch.
Constables—John Moran and Harry Blum.

The Vote.

The vote cast was not as large as usual, but was very satisfactory considering the issues. The candidates

received votes as follows:

	1	2	Total
For Town Clerk—			
J. E. Lewis	228	187	415
Charles Rabbitt	5	5	

For Assessor—			
John Holleran	94	36	130

Will Be Contract Work. The merchants of the city are particularly pleased because of the success of the hard roads proposition, and they see increased trade for the city because of the majority returned in favor of the improvement. The job will be let by contract.

Arrested for Trespass.

Joseph Waters was arrested last night on a state warrant charging trespass, the complaining witness being Brae Tennant. The suit, which is being tried this afternoon before Justice A. A. Virgil, was the result of difficulties growing out of the stopping up of a drain pipe, which had been put through the sidewalk near the Tenant and Waters properties through which the water ran from the lawns into the street gutter.

Ohio Is Dry.

Amboy people are anticipating an influx of trade into this city as the result of yesterday's election at Ohio Station, when the town was voted dry territory.

Council Did Little.

The regular meeting of the city council was held last evening, but little business outside the routine was transacted. The treasurer's report showed the city to be in excellent financial condition.

Purely Personal.

Mr. and Mrs. H. Brewer were passengers east this morning.

Supervisor Charles Welty of Marion township was a visitor in Amboy this morning.

A. M. Hoover of Princeton visited friends and transacting business here today.

Lyle Wilcox of Sterling was a business visitor here this morning.

T. J. Lyons is making extensive improvements to the brick building at the rear of his saloon property.

Dog Catcher Has His Troubles.

"Snowball" McNinch, the official dog catcher of this city, is experiencing some difficulty in fulfilling his duties. Yesterday afternoon while strolling around the west side of the

I. C. tracks he spied a fierce canine running at large without a tag. He chased the animal into a yard and around the house and about this time the lady of the house appeared upon the scene armed with a very useful household article, and she immediately started after the dog catcher.

Our hero took to his feet, very judiciously, say we, pursued by the irate housewife and the dog. The sleuth stubbed his toe and fell and the dog got even with him by tearing a mouthful out of the gable end of his trousers. He scrambled to his feet and escaped across the tracks, a sadder but wiser man.

Plate Glass Replaced.

Oscar Spangler has had the large plate glass replaced which was recently destroyed by the wind. He will immediately get his building ready for occupancy. Mr. Spangler intends opening a rooming house.

Harry Holt, traveling man for the Sandusky Portland Cement company, was in Amboy yesterday in the interest of that company.

Mrs. Allen Hutchinson of Dixon was here yesterday.

Attended Funeral.

Wm. Friel of Iron River, Mich., is in town. He came to attend the funeral of the late Jacob Christiance. Father Foley of Dixon visited here yesterday.

The Telegraph will be pleased to have anyone in Amboy send social or other items of news to us for publication. Send by mail or call Phone No. 5.

John Thome, solicitor for the Telegraph, is in Amboy. Those indebted to the paper may settle with Mr. Thome, who will receipt for same.

POLICE ARE CLEARED

Rock Island Coroner's Jury Returns Its Verdict.

Finds That Riot Victims Came to Their Death at Hands of Parties Unknown.

Rock Island, Ill., April 3.—The coroner's jury which investigated the death of Frank H. Kellogg of Davenport, Ia., and Raymond Swingle, Rock Island, victims of last Tuesday's riot on the streets here, finished taking evidence and returned a verdict to Coroner Rose which, in effect, exonerates the police from blame for the death of the two men. The verdict is as follows:

"We, the jurors sworn to find the cause of death of Frank H. Kellogg and Raymond Swingle, deceased, on oath do find that they came to their deaths from gunshot wounds received about 8:30 p. m., March 26, 1912. Said shots being fired by persons unknown to the jurors from the police station on Third avenue and Sixteenth street in Rock Island, Ill., while the police of said city were endeavoring to disperse a mob which had assembled in the vicinity of said police station."

"J. W. Eklun, foreman, Olaf Atkinson, James G. Britton, John G. Smith, Frank Blochinger, S. W. Caldwell."

The special grand jury will probably finish its work this week and reports have it that there will be half a hundred indictments returned by that body. The jury is known to be investigating other matters than the riot, however, and disorderly houses and the owners of property they occupy may receive attention.

BLACKSTONE—CHICAGO.

Delightful and wholesome, is the keynote of the new "homey play" which W. H. Crane is to present at the Blackstone theatre, Chicago, for three weeks commencing Monday, April 8. The story is by Martha Morton who has fitted Mr. Crane so admirably in the past, and in The Senator Keeps House, has furnished him with a vehicle which will take its place among the many notable successes he has had. Describing the play to a friend Mr. Crane was asked: "Has it a punch?" "It has" replied the comedian. "The home punch." And that is the story in a nutshell of The Senator Keeps House As Senator Larkin, a widower who, with his nephew, who acts as his secretary, is keeping house in Washington, Mr. Crane is at his best.

They have had continuous trouble with their housekeepers, and one is seen departing as the play opens.

Congressman Judson of New York, a state for which Senator Larkin has small use, is trying to swindle the government out of a large sum of money, with which to settle a war claim. He introduces the claimant to the senator and induces him to employ her as his housekeeper.

The claimant, Mrs. Ida Flower, played by Miss Mabel Bert, believes she has a legitimate claim, and expects to use her influence to get Senator Larkin to support the claim in the senate. She brings with her into the home her daughter, Eva, played by Miss Lorraine Frost. The fraud is discovered and the claimant exonerated by Senator Larkin, ending up by the marriage of his secretary and

his housekeeper's daughter, and as the critic ably described it, sending the audience home with a genial glow in their hearts.

RINGLING'S CIRCUS

Ringling Brothers' Circus will begin a short engagement at the Coliseum in Chicago Saturday night, April 6th, opening its elaborate program with the wonderful wordless play of Joan of Arc. The superb spectacle is performed by a cast of 1,200 people on the biggest stage ever built, equipped with a trainload of special scenery, properties, and stage effects. There is a ballet of 300 hundred dancing beauties, a chorus of 300 voices, an orchestra of 100 people, and 500 handsome horses. The costumes are the most gorgeous and expensive ever displayed in any entertainment. The program in the three rings, two platforms and hippodrome track is the most attractive and novel that the Ringling Brothers have ever offered. It is composed, for the most part, of European novelties and is brim full of thrilling acts and unique specialties. It is particularly strong in trained animal features, while the equestrians, acrobats, aerialists and clowns are the picked talent of the world.

MRS. H. L. STIMSON

Mrs. Henry L. Stimson is practically a new figure in the social life of the president's official family, for she has been in mourning most of the time since her husband was appointed secretary of war. During the coming Easter season she will be the central figure of many society affairs.

OSTEOPATHY

DISEASES OF CHILDREN.

Among the uninformed it is often thought that Osteopathic treatment is too severe for children, but this is a misconception and far from the truth. Treatment necessarily is very light and brings splendid results. They often enjoy the treatment.

To parents and all those responsible for the care of children we would say that Osteopathy has proven in thousands of cases to be the safest and quickest method of curing children's diseases and prevents many chronic ailments.

Truly it has been said with regard to child life, that "As the twig is bent the tree is inclined." Unfortunately many parents do not act and have the trouble corrected quickly, but expect the child to outgrow it. In some cases they do, but it is a serious risk to take. The Osteopath finds many half grown children with chronic diseases and deformities which could have been prevented at the beginning in a few treatments, but which take months of treatment later and some may never fully recover. Of course, there are some conditions which never can be cured, but most of them can if proper treatment is administered.

The Osteopath gives a thorough physical examination to find the real cause. He does not treat symptoms, but removes the cause and the symptoms disappear.

Injuries are many times received while at play. From falls, strains, blows, jumping, lifting, kicking, etc., which produce some lesion of the anatomy bringing pressure or irritation upon the nerves or blood vessels, causing disease.

Do not neglect the children. If you do you will have many days of regret when they are older.

LINKS MAILS AND EXPRESS IN BILL

House Committee Favorably Reports Measure for Interchange With R. F. D.

ZONE IS BASIS FOR CHARGES

Gives Interstate Commerce Committee Authority Over Companies—New Senators From New Mexico Take Oath of Office.

Washington, April 3.—The house interstate and foreign commerce committee has reported favorably a bill to amend the law giving the interstate commerce commission authority over express companies.

Provision would be made for rate zones, the charges varying according to the distance the package was carried from the point of origin. A close working arrangement also would be provided between the express companies and the rural free delivery system of the post office department.

The bill would govern the transportation of packages not exceeding eleven pounds in weight and with a valuation of \$50 or less. No allowance would be made for the expense of transfer from one express company to another.

Schedule of Rates Proposed.

The rates would be fixed as follows: Between any two points in the United States more than 2,000 miles apart 12 cents a pound; not more than 2,000 miles apart, 10 cents; not more than 1,200 miles apart, 7 cents; not more than 800 miles apart, 5 cents; not more than 600 miles apart, 4 cents; and between points not more than 250 miles apart, 2 cents a pound. It is provided, however, that no express company shall be compelled to accept for transportation any package at a charge less than 10 cents.

An innovation in the bill is the provision for co-operation between the express companies and the rural free delivery routes. Express matter destined for a farmer living on a rural mail route would be delivered by the express agent at the nearest point to its destination, where, provided the shipper had attached the necessary postage, it would be turned over to the mail carrier, through the regular channels, for delivery. Rural carriers likewise would be authorized to accept matter on which postage had been paid for delivery to the express company.

Failure of any express company to carry out the provisions of the law would be punished by a fine in each case of \$100 and attorneys' fees, together with such damages as the person aggrieved might collect in court.

Four New Senators Sworn In.

The senate became a body of 96 members, the new states of New Mexico and Arizona contributing the four additional senators. Thomas B. Catron and Albert B. Fall of New Mexico, Republicans, and M. A. Smith and H. F. Ashurst of Arizona, Democrats, were the new members to take the oath on the dais in front of the vice-president's chair.

Senators Catron and Ashurst were chosen to serve until 1917, Fall until 1913 and Smith until 1915.

QUEEREST PRISON IN WORLD

Arizona County Jail Is Blasted Out of a Mountain of Solid Quartz Rock.

When the authorities of Graham county, Arizona, decided to look about for a place in which to confine criminals, they found a natural depression in the side of a hill. This was enlarged into what might be called an artificial cave, divided into four compartments. The cave was excavated parallel to the side of the mountain in which it was made, and daylight admitted by holes blown out of the wall with explosives, the windows being guarded by a network of heavy steel bars. The entrance to the depression was also closed in the same manner, and a vestibule or porch of masonry built out from it to provide quarters for the sheriff and his assistants. This vestibule is also divided into compartments, which are connected by gates of steel bars. The only way of entering the prison is through the vestibule of masonry, and in order to escape the inmates would have to cut their

way through three sets of bars which are an inch in thickness, as the windows are so high up above the rock forming the floor of the cells that they could not reach them. It is necessary, however, to have a very secure place, as the criminals in this part of the country are of a most desperate class, and the inmates frequently include murderers and highwaymen. The mountain which has thus been turned into a prison is composed of solid quartz rock, and the excavation was made principally by the use of explosives. The jail is located in the town of Clifton, the county seat.—Wide World Magazine.

ROOSEVELT COMMENDS MAGILL

"By George, it's a bully fight you have been putting up here in Illinois!"

In these characteristic words, Theodore Roosevelt, at a luncheon Saturday at the Congress hotel in Chicago, expressed his approval of the work of Hugh S. Magill, candidate for United States senator, and the other progressive republican leaders in this state.

They emphasized the endorsement of Gifford Pinchot who in a recent speech at Danville declared that the election of Senator Magill to the United States senate would mean one more senator at Washington fighting for the interests of the people.

Senator Magill, who is the only progressive candidate in the field for U.

S. senator, has conducted one of the most remarkable campaigns in the history of the state. Starting last fall with a splendid legislative record at Springfield, he has made speeches in nearly every large city in the state, and in the short space of four months has made his name familiar to nearly every voter.

His campaign has been a vigorous attack upon special privileges and corruption in politics and his platform is based upon a foundation of constructive policies which appeal to common sense republicans as safe and sound and a practical solution of the problems of government which confront the state and nation at this time.

Watch tomorrow's issue for announcement of O. H. Martin & Co.'s in tomorrow's issue.

How to Extinguish Fire on Oil

Many people throw water on oil to put out the fire, which is the worst thing that could be used for the reason that the oil will neither absorb the water or mix with it.

The heat from burning oil is very intense and the instant the two come in contact the water is converted into steam with an explosive force which invariably scatters the oil and increases the danger. No matter how much water is used the oil or gasoline will rise to the top and continue to burn until the fire consumes it or other means are employed to put it out.

The sad accident which resulted in the death of Mrs. Gephart and son recalls to my mind an instance where a fire which threatened the destruction of the entire business portion of a town—probably two hundred thousand dollars worth of property—was extinguished with only one sack of

flour. When the fire was discovered the flames extended to the roof—probably 12 or 14 feet. The flames completely enveloped the barrels and after the fire had been extinguished, it was discovered that two hoops had burst off of one kerosene barrel, so intense was the heat. There were five barrels in the room, and all on fire. It so happened that a sack of flour was at hand and it was less than two minutes' work to put the fire out.

In the event that you cannot get flour, fine dust, sand or ashes will do the work. If an oil exposure should ignite your clothing flour will put it out if applied at once. A quilt, blanket or anything that will cover and smother the flames should be used. Any article that will cover the victim and cut off the supply of oxygen or gas from the flames will put out the fire. Many deaths occur by trying to remove clothing which might have been avoided if the pa-

tient had been wrapped in something to smother the flames, which in most instances is quicker done. In all cases where possible and help is near, the victim should lie down to prevent inhaling the flames. In no case should one run of doors with burning clothing, especially when the wind is blowing, for that invariably increases the danger.

The use of flour on oil is a simple and comparatively inexpensive fire extinguisher. It is one which is found in every home. There is no patent on it, and any person may use it with out infringing on the rights of others. I give it to the readers of the Telegraph, hoping that if occasion should require its use, they will not forget it.

SYNOPSIS.

CHAPTER I.—Lieut. Harry Mallory is ordered to the Philippines. He and Marjorie Newton decide to elope, but wreck of taxi cab prevents their seeing minister on the way to the train.

CHAPTER II.—Transcontinental train is taking on passengers. Porter has a lively time with an Englishman and Ira Lathrop, a Yankee business man.

CHAPTER III.—The elopers have an exciting time getting to the train.

CHAPTER IV.—"Little Jimmie" Wellington, bound for Reno to get a divorce, boards train in maudlin condition. Later Mrs. Jimmie appears.

CHAPTER V.—She is also bound for Reno with same object. Likewise Mrs. Sammy Whitcomb.

CHAPTER VI.—Latter blames Mrs. Jimmie for her marital troubles. Gossips of Mallory decorate bridal berth.

CHAPTER VII.—Rev. and Mrs. Temple start on a vacation. They decide to cut local and Temple removes evidence of his calling.

CHAPTER VIII.—Marjorie decides to let Mallory proceed alone, but train starts while they are lost in farewell.

CHAPTER IX.—Passengers join Mallory's classmates in giving couple wedding blessing.

CHAPTER X.—Marjorie is distracted over their situation.

CHAPTER XI.—Ira Lathrop, woman-hating bachelor, discovers an old sweetheart, Anne Gattie, a fellow passenger.

CHAPTER XII.—Mallory vainly hunts for a preacher among the passengers.

CHAPTER XIII.—Mrs. Wellington hears Little Jimmie's voice. Later she meets Mrs. Whitcomb.

CHAPTER XVII.

Last Call for Breakfast.

It was still Iowa when Mallory awoke. Into his last moments of heavy sleep intruded a voice like a town-crier's voice, crying:

"Last call for breakfast in the Ringing Rar," and then, again louder, "Last call for breakfast in Ringing Rar," and, finally and faintly, "Last call breakfast r'r'r."

Mallory pushed up his window-shade. The day was broad on rolling prairies like billows established in the green soil. He peered through his curtains. Most of the other passengers were up and about, their beds hidden and beddings stowed away behind the belying veneer of the upper-works of the car. All the berths were made up except his own and number two, in the corner, where Little Jimmie Wellington's nose still played a bagpipe monody, and one other berth, which he recognized as Marjorie's.

His belated sleep and hers had spared them both the stares and laughing chatter of the passengers. But this bridal couple's two berths, standing like towers among the seats, had provided conversation for everybody, had already united the casual group of strangers into an organized gossip-see.

Mallory got into his shoes and as much of his clothes as was necessary for the dash to the washroom, and took on his arm the rest of his wardrobe. Just as he issued from his lonely chamber, Marjorie appeared from hers, much disheveled and heavy-eyed. The bride and groom exchanged glances of mutual terror, and hurried in opposite directions.

The spickiest and spannest of lieutenants soon realized that he was reduced to wearing yesterday's linen as well as yesterday's beard. This was intolerable. A brave man can endure heartbreaks, loss of love, honor and place, but a neat man cannot abide the traces of time in his toilet. Lieutenant Mallory had seen rough service in camp and on long hikes, where he gloried in mud and disorder, and he was to see campaigns in the Philippines, when he should not take off his shoes or his uniform for three days at a time. But that was the field, and this car was a drawing room.

In this crisis in his affairs, Little Jimmie Wellington waddled into the men's room, floundering about with every lurch of the train, like a cannon loose in the hold of a ship. He tumbled with the handles on a basin, and made a crazy toilet, trying to find some abatement of his fever by filling a glass at the ice-water tank and emptying it over his head.

These drastic measures restored him to some sort of coherency, and Mallory appealed to him for help in the matter of linen. Wellington effusively offered him everything he had, and Mallory selected from his store half a dozen collars, any one of which would have gone round his neck nearly twice.

Wellington also proffered his safety razor, and made him a present of a virgin wafer of steel for his very own. With this assistance, Mallory was enabled to make himself fairly presentable. When he returned to his seat, the three curtained rooms had been whisked away by the porter. There was no place now to hide from the passengers.

He sat down facing the feminine end of the car, watching for Marjorie.

The passengers were watching for her, too, hoping to learn what unhealed incident could have provoked the quarrel that separated a bride and groom at this time, of all times.

To the general bewilderment, when Marjorie appeared, Mallory and she rushed together and clasped hands with an ardor that suggested a desire for even more ardent greeting. The passengers almost sprained their ears to hear how they would make up such a dreadful feud. But all they heard was: "We'll have to hurry, Marjorie, if we want to get any breakfast."

"All right, honey. Come along."

Then the inscrutable couple scurried up the aisle, and disappeared in the corridor, leaving behind them a mighty riddle. They kissed in the corridor of that car, kissed in the vestibule, kissed in the two corridors of the next car, and were caught kissing in the next vestibule by the new conductor.

The dining car conductor, who flattered himself that he knew a bride and groom when he saw them, escorted them grandly to a table for two; and the waiter fluttered about them with extraordinary consideration.

They had a plenty to talk of in prospect and retrospect. They both felt sure that a minister lurked among the cars somewhere, and they ate with a zest to prepare for the ceremony, arguing the best place for it, and quarreling amorously over details. Mallory was for one of the vestibules as the scene of their union, but Marjorie was for the baggage car, till she realized that Snoozleums might be unwilling to attend. Then she swung round to the vestibule, but Mallory shifted to the observation platform.

Marjorie had left Snoozleums with Mrs. Temple, who promised to hide him when the new conductor passed through the car, and she reminded Harry to get the waiter to bring them a package of bones for their only "child," so far.

On the way back from the dining car they kissed each other good-bye again at all the trying places they had sanctified before. The sun was radiant, the world good, and the very train ran with jubilant rejoicing. They could not doubt that a few more hours would see them legally man and wife.

Mallory restored Marjorie to her place in their car, and with smiles of assurance, left her for another parson-hunt through the train. She waited for him in a bridal agitation. He ransacked the train forward in vain, and returned, passing Marjorie with a shake of the head, and a sour countenance. He went out to the observation platform where he stumbled on Ira Lathrop and Anne Gattie, engaged in a conversation of evident intimacy, for they jumped when he opened the door, as if they were guilty of some plot.

Mallory mumbled his usual, "Excuse me," whirled on his heel, and dragged his discouraged steps back through the Observation Room, where various women and a few men of evident clericality were draped across arm chairs and absorbed in lazy conversation or bobbing their heads over magazines that trembled with the motion of the train.

Mrs. Wellington was busily writing at the desk, but he did not know who she was, and he did not care whom she was writing to. He did not observe the baleful glare of Mrs. Whitcomb, who sat watching Mrs. Wellington, knowing all too well who she was, and suspecting the correspondent—Mrs. Whitcomb was tempted to spell the word with one "r."

Mallory stumbled into the men's portion of the composite car. Here he nodded with a sickly cheer to the sole occupant, Dr. Temple, who was looking less ministerial than ever in an embroidered skull cap. The old rascal was sitting far back on his lumbar vertebrae. One of his hands clasped a long glass filled with a liquid of a hue that resembled something stronger than what it was—mere ginger ale. The other hand toyed with a long black cigar. The smoke curled round the old man's head like the fumes of a sultan's narghile, and through the wisps his face was one of Oriental luxury.

Mallory's eyes were caught from this picture of beatitude by the entrance, at the other door, of a man who had evidently swung aboard at the most recent stop—for Mallory had not seen him. His gray hair was crowned with a soft black hat, and his spare frame was swathed in a frock coat that had seen better days. His soft gray eyes seemed to search timidly the smoke-clouded atmosphere, and he had a bashful air which Mallory translated as one of diffidence in a place where liquors and cigars were dispensed.

With equal diffidence Mallory advanced and in a low tone accosted the newcomer cautiously:

"Excuse me—you look like a clergyman."

"The hell you say!"

Mallory pursued the question no further.

REV. F. D. STONE

PLEASED AUDIENCE

"The audience may be strange and the faces new, but I preach the same gospel to you that I do to my people," said Rev. F. D. Stone at St. Paul's Lutheran church last evening.

The speaker then took as the basis of his remarks the incident on the way to Calvary when Simon of Cyrene was compelled to bear the cross. The inference concerning the wife of Simon and the two sons, Alexander and Rufus, was most suggestive and encouraging. The noblest achievements come from cross-bearing. There is no substantial and permanent progress in the home, school, state or church without it. Some one must help carry the burden and bear the cross if others are to be benefited. Sacrifice lies at the root of the tree that bears the choicest fruit. The message was appreciated by the large company present. Rev. George A. Smith will preach this evening. Come and spend an hour in helpful meditation. It will do good.

AVOID HARSH DRUGS.

MANY CATHARTICS TEND TO CAUSE INJURY TO THE BOWELS.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt, soothing and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless.

Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night without fear of causing any inconvenience whatever. They do not gripe, purge nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store—The Rexall Store, C. M. Campbell & Son, 105 First St.

SUFFERED AGONY WITH ITCHING

And Burning. Sores Like Boils All Over Body. Parts of Flesh Raw. Could Scarcely Bear Clothes On. Nearly Worn Out When He Tried Cuticura Remedies and Was Cured.

"About four years ago I broke out with sores on my arms like boils. After two months they were all over my body, some coming, and some going away. In about six months the boils quit, but my arms, neck and body broke out with an itching, burning rash. I would burn and itch, and come out in pimples like grains of wheat. I was in a terrible condition; I could not sleep or rest. Parts of my flesh were raw, and I could scarcely bear my clothes on. I could not lie in bed in any position and rest. In about a year the sores extended down to my feet. Then I suffered agony with the burning, itching sores. I could hardly walk and for a long time I could not put on socks."

"All this time I was trying everything I could hear of, and had the skill of three doctors. They said it was eczema. I got no benefit from all this. I was nearly worn out, and had given up in despair of ever being cured when I was advised by a friend to try Cuticura Remedies. I purchased Cuticura Soap, Ointment, and Resolvent, and used exactly as directed. I used the Cuticura Remedies constantly for four months, and nothing else, and was perfectly cured. It is now a year, and I have not had the least bit since. I am ready to praise the Cuticura Remedies at any time." (Signed) E. L. Cate, Exile, Ky., Nov. 10, 1910.

Cuticura Soap and Ointment are sold throughout the world. Send to Potter Drug & Chem. Corp., Dept. 21A, Boston, for free sample of each with 32-p. book on the skin.

TO BREAK UP COLD

Some Advice That Will Save Time and Money

Strong drink and quinine may relieve a cold, but usually does more harm than good.

To break up a hard cold in either head or chest thousands are using this sensible treatment.

First of all look after your bowels; if they need attention use any reliable cathartic. Then pour a scant teaspoonful of HYOMEI into a bowl of boiling water, cover head and bowl with a towel and breathe for 5 or 10 minutes the pleasant, soothing, healing vapor.

Do this just before going to bed; your head will feel fine and clear and you'll awake from a refreshing sleep minus a cold in the morning.

For colds (coughs, catarrh, asthma and croup) HYOMEI is guaranteed. A fifty cent bottle is all you need to break up a cold and this can be obtained at Rowland Bros. drug store and druggists everywhere.

Rheumatic Pains quickly relieved

Sloan's Liniment is good for pain of any sort. It penetrates, without rubbing, through the muscular tissue right to the bone—relieves the congestion and gives permanent as well as temporary relief.

Here's Proof.
A. W. LAY of Lafayette, Ala., writes:—"I had rheumatism for five years. I tried doctors and several different remedies but they did not help me. I obtained a bottle of Sloan's Liniment which did me so much good that I would not do without it for anything."

THOMAS L. RICE of Easton, Pa., writes:—"I have used Sloan's Liniment and find it first-class for rheumatic pains."

Mr. G. G. JONES of Baldwin, L. I., writes:—"I have found Sloan's Liniment par excellence. I have used it for broken sinews above the knee cap caused by a fall, and to my great satisfaction I was able to resume my duties in less than three weeks after the accident."

SLOAN'S LINIMENT

is an excellent remedy for sprains, bruises, sore throat, asthma. No rubbing necessary—you can apply with a brush.

A GREAT RECORD

THERE CAN BE NO DOUBT ABOUT THE RESULTS IN DIXON

Results tell the tale. All doubt is removed. The testimony of a Dixon citizen can be easily investigated. What better proof can be had? Mrs. W. H. Randall, 423 College avenue, Dixon, Ill., says: "Doan's Kidney Pills have been used in our home with the best of results and I feel that I cannot praise them too highly. One member of the family suffered for some time from backache and severe pains across the kidneys and found great difficulty in stooping. Doan's Kidney Pills, procured at Leake Bros. & Co.'s Drug Store, brought prompt relief, removing all symptoms of kidney complaint." (Statement given April 14, 1909.)

A Lasting Effect. On January 11, 1910, Mrs. Randall said: "Doan's Kidney Pills made a permanent cure in the case of a member of our family. I still have great confidence in this remedy and willingly permit the further publication of my former statement in its favor."

For sale by all dealers. Price 50 cents. Foster-Milbur, Co., Buffalo, New York, sole agents for the United States.

Remember the name — Doan's — and take no other.

FLOODS CAUSE PANIC AT CAIRO

Gov. Deneen Sends Troops to Guard Levees of Illinois City.

UNITED STATES VOTES AID

Congress Rushes Bill Through Appropriating \$350,000 to Strengthen the Mississippi Levees to Check Torrential Flood.

Springfield, Ill., April 3.—Reports of violence at Cairo on account of the floods prompted Governor Deneen to send a company of the National Guard from Rock Island to that city. General Dickson is en route with one company. In response to other appeals the governor sent tents and food supplies to Mounds.

Receipt of a prediction from Washington that within a few days the river would reach a height of fifty-six feet threw the citizens of Cairo into a panic and started an exodus. Many women and children were placed on afternoon trains and more prepared to leave.

Mayor George Parsons issued a proclamation requesting the closing of all business houses excepting grocery, butcher, bakery and drug stores, that every man might give his time and energy to strengthening and raising the levees.

The river gauge registered 53.5 feet, 1.3 feet higher than the previous record. The levees which protect Cairo will stand 56 feet of water.

Appropriate \$350,000 for Sufferers.

Washington, April 3.—The senate and house gave a demonstration of rapid legislation, when they by unanimous vote passed a bill appropriating \$350,000 to be immediately available for the strengthening and the extension of the levees along the Mississippi river.

The senate broke all precedents by passing the appropriation bill a few minutes after it had been reported to that body under suspension of the rules which require that all such measures be referred to a committee. The \$350,000 appropriation will be available as soon as the president's signature is affixed to it.

In the house the bill was put on passage as soon as it was reported from the rivers and harbor committee. The committee acted immediately on receipt by the house of a message from President Taft urging an appropriation of \$500,000 for the purpose. Earlier in the day the entire delegation in congress from Louisiana called on the president and pointed out the dangerous situation of the flood swept valley of the Mississippi and urged an appropriation.

Money is Sufficient Now.

The appropriation of \$350,000 instead of the amount asked for by the president, it was announced by Representative Randall who reported the bill, was made after consultation with the war department and the receipt of private messages, which showed the sum appropriated would be sufficient for the present.

President Taft urged the passage of the bill in a message to congress. It follows in part:

"It seems proper that the government take immediate action to make the loss impending as little as possible. In view of the character of the emergency and the safeguards surrounding the expenditures made under the corps of engineers, I have no hesitation in asking for an appropriation of \$500,000, as recommended by the secretary of war."

Thousands Are Homeless.

Hickman, Ky., April 3.—The flood waters of the Mississippi river, which broke the West Hickman levee, have poured a muddy current eight feet deep through the business streets, the factory and the tenement districts of the town.

Two thousand persons are homeless. The work of systematically caring for the refugees has been taken up. The tents shipped by the state military have arrived.

Mississippi Highest Ever Known. Memphis, Tenn., April 3.—The Mississippi river has reached a stage of 41.9 feet, the highest ever reached here. The predicted rise to forty-four feet announced by the weather bureau will add greatly to the damage already done, though no new levee breaks are reported.

38 Trains Are Freed.

Omaha, Neb., April 3.—The flood situation in eastern Nebraska was greatly relieved here when 2,000 passengers who had remained in Omaha for forty hours were able to continue their journey westward. The Union Pacific railroad was able to start fifteen of its overland trains westward and twenty-three trains held up in Fremont have started east. The Burlington, Missouri Pacific and Rock Island roads established a limited service.

Zion Society Convention Opens. Kansas City, April 3.—With 300 delegates from various parts of the country attending, the annual convention of the Zion Religious Literary society of the Reorganized Church of Latter Day Saints has begun at Independence, Mo.

Princeton to Row Cornell. Ithaca, N. Y., April 3.—The Cornell athletic office announced that Princeton will row Cornell and Harvard on the Charles river on May 23.

FOR LIGHT ON JAPAN

SENATE MOVES TO CHECKMATE NIPPON ACTIVITY IN MEXICO.

Asks for Data on Effort to Get Naval Base at Port on Eastern Coast.

Washington, April 3.—The senate adopted a resolution presented by Senator Lodge requesting the president, if not incompatible with public interest, to furnish the senate all information bearing on reported Japanese activity at Magdalena Bay, lower California.

The resolution, on which there was no debate, had reference to reported purchase of land by the Japanese government or a Japanese company on Mexican soil.

Senator Lodge called the attention of the senate during the recent debate on the arbitration treaties with France and Great Britain to the possibility of some great eastern power directly or indirectly taking possession of a harbor on the west coast of Mexico to establish a naval station and a place of arms.

President Taft promised Representative Garner of Texas to take up with the war department the question of protection for citizens of Del Rio, Tex., on the Mexican border. Mr. Garner presented to the president letters and telegrams from officials of the towns showing their alarm over conditions south of Del Rio and asking for aid.

Jimenez, Mexico, April 3.—The battle for possession of the important city of Fajal is on. General Campa posted his men in the hills near the city and an artillery duel began.

TAKES SHOT AT SIDNA ALLEN

Farmer Sees Mountain Outlaw Chief, But Bandit Is Out of Range.

Hillsville, Va., April 3.—Sidna Allen, the chief of the mountain outlaws who shot up Carroll courthouse and who has been hunted in the mountains ever since, was seen and shot at by Alex. Divins, a farmer. Allen, however, was out of range.

Two bloodhounds from the state farm are the main hope of the hunters now.

Some of the posse are still in the mountains, guarding the roads, but the heavy rains drove the main parties into the settlements for food and shelter.

MARSHAL SHOTS THREE MEN

Charles Brod Is Dead and Two Others
Are Perhaps Fatally Wounded
by George Wingler
at Odin.

Centralia, April 3.—Charles Brod was killed and Jess Bay and Henry Grose were perhaps fatally wounded by George Wingler, a deputy marshal, in a fight at Odin, seven miles north of here. Brod and his companions were making a disturbance when they were overtaken by George Flinn, the village marshal. Flinn, after deputizing Wingler, started to take two of the young men home. Brod, according to reports, knocked down Wingler, who emptied his revolver into the crowd. Bay and Grose were brought to a hospital here and it is said they cannot live.

Tired of Children's Home; Runs Away
Chicago, April 3.—Marshall Hendrickson, fourteen years old and detained at the home of Illinois Children's Home and Aid society in Evanston, didn't like the restraint, so he slipped out of a window and departed for parts unknown, at least not specified. It was two hours before Mrs. Isabella Lauvers, matron of the home, discovered the French leave-taking of the boy. He had been in the home about two weeks.

500 Women Pray at Polls.
Sterling, April 3.—The fight over exclusion or retention of the saloons had a dramatic finish when the city voted. Approximately 500 women, "dry" fighters, spent the day in prayer at the polls as their husbands and brothers cast the ballots the wives and sisters thus sought to influence. Both sides express confidence of victory.

New Market Is Promising.
Aurora, April 3.—Bad country roads prevented many farmers from bringing their produce to the new municipal market, which opened here, but there was a large attendance of town buyers and the market promises to become a popular institution. One farmer who braved the slush and mud disposed of his wares in short order.

Coroner to Quiz Woman's Death.
Rockford, April 3.—The death of Mrs. Fred Wheeler, after an illness of only twenty minutes, in which she is said to have expressed severe convulsions is being investigated by the coroner. The viscera of Mrs. Wheeler will be subjected to an analysis. She was the wife of a farmer living near Cherry Valley.

Alleged Forger a Jail Suicide.
Harrisburg, April 3.—John Geer, age sixty-five, who was confined in the county jail here charged with forgery, killed himself in his cell by swallowing carbolic acid. His home was said to have been in New York state.

Convict Seeking Pardon.
Pontiac, April 3.—George M. Chaney, who was sentenced to the Joliet penitentiary last spring to serve an indefinite term on the charge of forgery, is seeking a pardon.

Frank B. Norwood Dead.
Elgin, April 3.—Word was received here of the death of Frank B. Norwood, former superintendent of the Cutter-Crossette shirt factory of Elgin, at Oakland, Cal.

Cow Keeps Ring in Stomach 8 Years.
Springfield, April 3.—When a cow belonging to Mrs. Nettie Arnold Jones was butchered a ring which Mrs. Arnold lost eight years ago was found in its stomach.

Mine Workers Plan Meeting.
Taylorville, April 3.—The delegates from the mine locals of subdistrict No. 9, United Mine Workers of America, met here in regular session.

Mount Vernon Pastor to Leave.

Something New in a Lamp Burner.

They call it the Sanitary Lamp Burner, patent gas-generating,
fits all lamps.

They claim that it gives off no smoke, no soot, no odor; gives
a clear white light equal to electric light.

We have found them a great deal better than the old style.

They retail at 25c. each. Ask to have them shown to you
when you are in the store next time.

READY MONEY

A little ready money often puts opportunity within
your reach.

The chance for a good investment comes to every one
sooner or later. If you have the money the profit is
yours; if not, the other fellow gets it.

By becoming a member of this Association and sub-
scribing for a few shares of stock you will begin a sys-
tematic method of saving, whereby you will have the
Ready Money when opportunity comes your way.

The full amount paid on stock may be withdrawn
at any time with a portion of the earnings.

No trouble to explain our system.
